

**Introducing
“MOON”
A silent girl**

**Always there, always
connected.
At first, she was just a
chatbot. Let us tell you her
story...**

A purple speech bubble with a white border and a white background. It has a tail pointing towards the top left.

**I run an
e-commerce website.
How can Axelites
help me?**

Answer

A blue speech bubble with a white border and a white background. It has a tail pointing towards the bottom right.

**We are a digital services
company (ESN) specialized
in designing and developing
customized digital
solutions...**

Three blue rectangular shapes with white borders, arranged in a fan-like pattern pointing towards the blue speech bubble.

**For our bank... how
can Axelites help?**

Answer

**We are a digital services
company (ESN) specialized
in designing and developing
customized digital
solutions...**

A woman with long, straight, light brown hair is shown from the back and side, looking out a large window. The background is a blurred office interior with green plants and a desk. A semi-transparent purple box with white text is overlaid on the lower half of the image.

An e-merchant on one side, a bank on the other..

And yet... a single answer..

No nuance. No adaptation.

Nothing alive.

A woman with long, straight brown hair is seen from behind, looking out a large window. The background is a blurred office interior with green plants and a desk. A purple text box is overlaid on the bottom half of the image.

**But Moon evolved.
She learned.
She became very intelligent!**

**I run an e-commerce
website.
How can Axelites
help me?**

Answer

**For you, Axelites develops
your website, analyzes
your catalog and sales,
optimizes conversions...**

**For our bank... how
can Axelites help?**

Answer

**For you, Axelites secures
operations, detects
anomalies, automates
controls, and supports your
teams...**

**I'm no longer just a chatbot.
I understand.
I adapt.
I work for you.**

**AI EVOLVES.
YOUR SERVICES DO TOO.**

**WELCOME TO THE ERA OF
INTELLIGENT TOOLS.**

MOON IS JUST THE BEGINNING.

**AT AXELITES, WE HAVE DEVELOPED AN ENTIRE
ECOSYSTEM AROUND AI...**

AND WE GAVE IT A NAME : AURELIA

AureliaWatch

AureliaWatch continuously monitors your infrastructure. It analyzes logs, detects anomalies, identifies suspicious behaviors, and flags issues before they become critical.

AureliaExplore

It's an ultra-fast search for product catalogs. Instant results, responsive filters, smooth navigation.

AureliaMoon

The intelligent agent created by Axelites, capable of understanding every business and responding accurately, far beyond the generic answers of traditional chatbots.

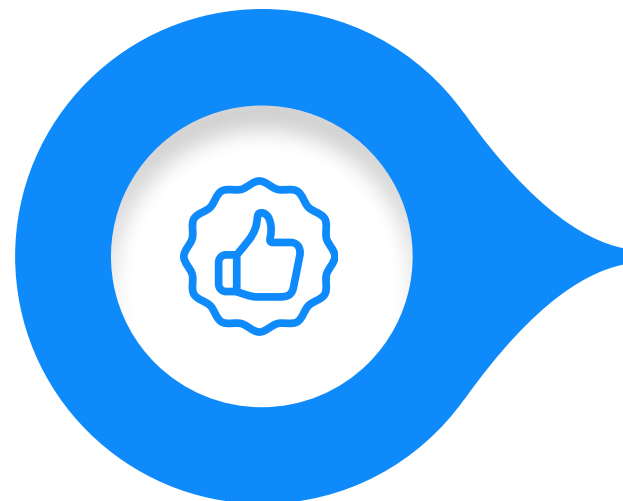

AureliaQA

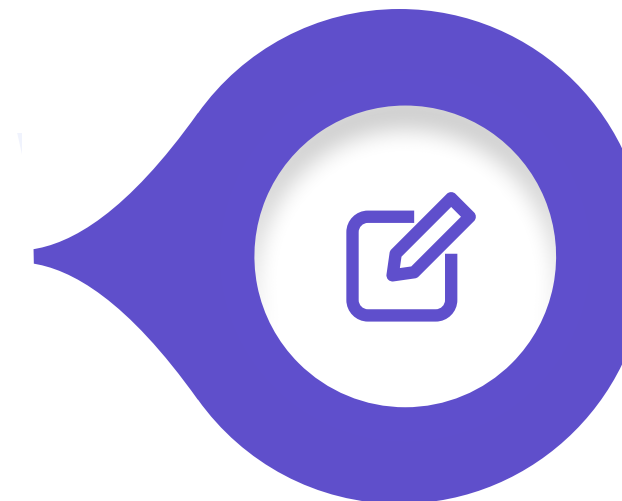

This solution automates your tests, detects anomalies, and secures your deployments. You save time and deliver more reliably.

AureliaSuggest

Axelites' AI analyzes sales and buying behaviors to recommend the right product at the right time.

aurelia

AureliaCompose

Generates content tailored to any type of business. The texts are optimized and thoughtfully crafted, enriching your catalog effortlessly.

aurelia MOON

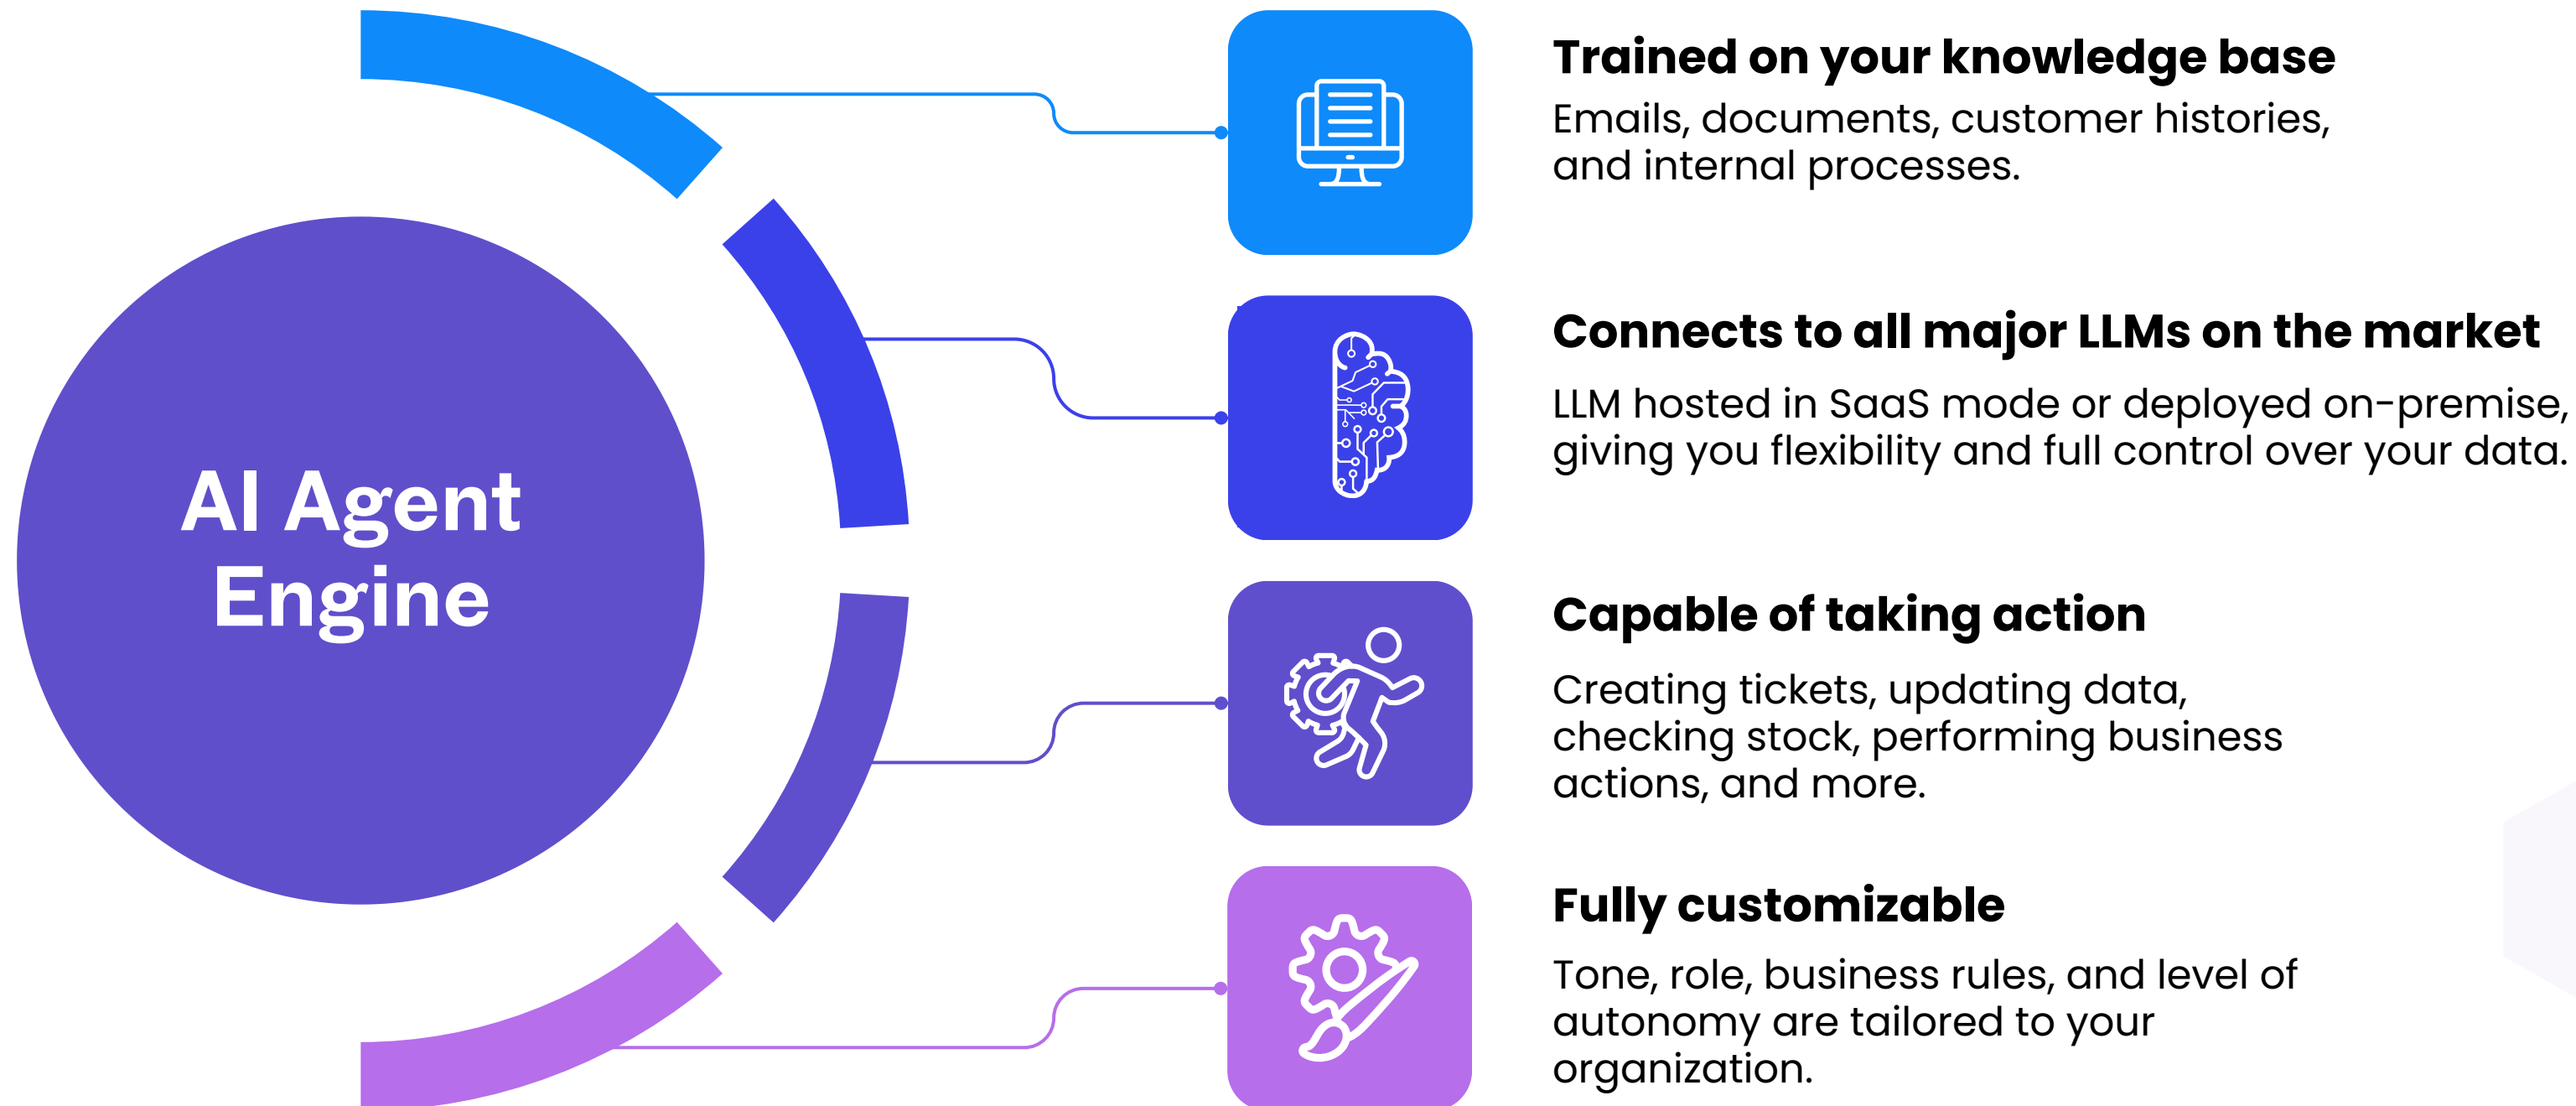

Aurelia Moon is our AI agent. She can act as a responsive customer support representative, a sales advisor who guides and assists, or even as an assistant who helps your users make the right choices.

She adjusts her behavior in real time, based on your business and your expectations.

With Moon on your team, you delegate support, analysis, and information gathering... allowing your employees to focus on creation, strategy, and real value.

AureliaMoon is your AI agent, designed to understand your business, learn from your data, and intelligently operate within your processes.

aurelia MOON

Results after 7 days with our AI Customer Support Agent

Our analyses showed an immediate improvement in performance from the very first month.

increase in the number
of requests handled
per day

+350%

Improved consistency
between AI responses and
validated internal processes

94%

92%

Customer requests
handled without human
intervention

<12seconds

Average response time
observed after one week

-37%

Operational workload for
the customer support team
during the first week

+90%

Percentage of conversations
where the customer remains
satisfied until the end without
escalation

aurelia WATCH

AureliaWatch intelligently and continuously monitors your infrastructure, analyzes your logs, and instantly detects every anomaly, suspicious behavior, or potential risk using AI.

It automatically detects issues such as low disk space, abnormal memory or CPU usage spikes, IPs spamming, or any other unusual behavior, and immediately alerts you to take action at the right time.

AureliaWatch works equally well in SaaS mode or on-premise.

Your teams spend too much time on manual testing, which quickly becomes exhausting.

AureliaQA intelligently automates the creation and execution of test scenarios, reduces human errors and regressions, ensures complete test coverage, and provides true scalability with no extra effort.

Test progress and bug statistics are displayed directly in your back office, with automatic bug creation in your tools.

AureliaQA works equally well in SaaS mode or on-premises.

Our e-commerce suite: **Suggest + Compose + Explore**

- Optimize your sales with relevant recommendations.
- Enhance your product pages with automatically generated content.
- Make search and navigation faster and smoother.
- Works with both small and large catalogs.
